2001 FIRST QUARTER REVIEW

As usual, crime was virtually unheard of in Strawberry Hill, due to a continued focus on crime prevention among citizens. Increased target-hardening efforts (alarm installations, etc.) did well to fend-off larcenies, break-ins, and robberies throughout 2001's 1st Quarter. • Only one **housebreak** transpired throughout the entire Quarter, and took place on May St. in late February. Sometime between noon and early evening, an unknown suspect entered an assisted-living complex, before fleeing with various electronics and equipment. • There were no distinct crime patterns to accredit with maintaining a total of 6 **malicious destruction** crimes. Incidents of this nature took place sporadically throughout the first 3 months of 2001, with different forms of motor vehicle, home, or building damage occurring in different areas, and at varied times of day. Such events included paint and egg vandalism, as well as miscellaneous graffiti markings and a single dent on an automobile (incurred by way of a shopping carriage.)

NEIGHBORHOOD PROFILE AND HISTORICAL SYNOPSIS

With a small population, Strawberry Hill challenges Cambridge Highlands for the lowest crime rates in the city. Its citizenry includes the residents of the Corcoran Park housing development and the large apartment building at 700 Huron Avenue. Its primary commercial establishment is Star Market.

- Overall, Strawberry Hill must be considered one of the safest areas in the city. In 1995 and 1996, here were no street robberies reported, and there were only two in 1997. For auto theft, larceny from motor vehicles, and malicious destruction, Strawberry Hill continually ranks lowest in the city.
- Corcoran Park has historically been a “hot spot” for the occasional **housebreak**, and for some juvenile and gang crime. Frequent “Park and Walks” address these problems.
- Cars parked at the Star Market parking lot are sometimes targeted for **auto theft**, **larceny from motor vehicles**, and **malicious destruction**. Totals for this crime are usually extremely low, however. Several years ago, we received a number of reports of pocket picking from this area, but this pattern has not resurfaced.
